## 2. Access to Trading Signals

- 2.1. The Money Manager has developed certain trading systems ("System") designed to generate trading signals to be used in trading financial instruments. The Money Manager shall provide TTCM BM access to its trading signals for the purpose of trading customer accounts introduced by TTCM BM pursuant to such signals. The trading signals shall be provided to TTCM BM in the manner acceptable to TTCM BM.

## 3. Compensation

- 3.1. In consideration for providing TTCM BM with access to the trading signals generated by the System, TTCM BM agrees to pay the Money Manager a performance fee as listed on the Limited Power of Attorney signed by each of the Money Manager's clients holding trading accounts with TTCM BM. The remuneration paid to the Money Manager will constitute full payment for access to the trading signals generated by the System and can be executed by either TTCM BM or other affiliated entity. As a result, the Money Manager will not receive any additional benefits or compensation under this Agreement.
- 3.2. Money Manager's compensation is calculated on a monthly calendar basis. Payment requests can include accrued rebates and/or any performance fees listed on the Limited Power of Attorney signed by each of the Money Manager's clients holding trading accounts with TTCM BM for only the previous month(s), up to the end of the calendar month prior to the request. For each specific calendar month that a Money Manager reaches a performance lower than the High Watermark, the Money Manager will not be compensated a performance fee. Total Monthly Performance includes unrealized PnL deriving from the end of month valuation of the Money Manager's open positions.
- 3.3. TTCM BM values the safety of its followers' capital as an utmost priority. For this reason, Money Managers who apply abusive trading behaviour, introducing high risks to their followers, will be examined carefully and if deemed malicious, they will be refused compensation and may be banned from the TTCM BM services.
- 3.4. In order to avoid extremes, Money Managers are required to comply with a minimum set of guidelines that aim to reduce risks, such as No positions should be allowed to reach significant losses. The use of stop loss at reasonable values is mandatory to ensure followers' safety. A Money Manager's maximum total draw-down should not exceed their profit in pips (Max DD % should not be greater than 100%). This applies once there is an adequate record of provider's performance, e.g. once overall PnL exceeds 1000 pips. Note that the above thresholds in pips are indicative for basic FX pairs. Please assume equivalent amounts for all CFDs instruments.

## 4. The Money Manager's Exempt Status
