

REQUEST FOR SUBSCRIPTION TO THE TTCM COPY TRADE SIGNAL SERVICE

For Private Individuals

RISK DISCLOSURE STATEMENT & DISCLAIMER

Before you proceed the completion and submission of your Request to subscribe to the TTCM Copy Trade Signal Distribution Service, you should carefully read, understand and acknowledge the following Risk Disclosure Statement & Disclaimer:

- You expressly acknowledge, agree and fully understand that the TTCM CopyTrade Signal Service is a service offered by us via a software application that is designed to technically implement and automate copying processes occurring between (i) a Master MT4 Account, which is opened and operated via our MT4 Trading Platform by you as the Signal Provider and which sends trades and orders, and (ii) one or more Slave MT4 Accounts, which are opened and operated via the Company's MT4 trading platform by one or more third party Signal Subscribers and which are receiving the trades and orders from your Signal Provider's Master MT4 Account; as such the TTCM CopyTrade system is an auto-trading system, whereby your Signal Provider's Master MT4 Account and the Slave MT4 Account(s) of the Subscribers to your trading Signals communicate all the time and synchronize all settings and data in real time (copying the trades and movements from your Signal provider's Master MT4 Account to the Slave MT4 Account(s) of the Subscribers to your trading Signals); our MT4 Trading Platform receives Trading Signals from your Signal Provider's Master MT4 Account; once the signal is received, we validate the signal only for the purpose of verifying whether it is consistent with the third party Signal Subscriber's Slave MT4 Account settings and preferences; if the signal is accepted, we send the trading signal to the he third party Signal Subscriber's Slave MT4 Account for execution.
- In that regard, you acknowledge and agree that copy trading relies on technology and technology does not always work the way it is supposed to and **you expressly acknowledge, agree and fully understand that using the TTCM CopyTrade Signal Service for the distribution of your Trading Signals exposes you to risks associated with the use of computers and data feed systems relied on by us to perform the TTCM CopyTrade Signal Service, which may include, but are not limited to, failure of hardware, software or communication lines or systems, delays in our systems processing requests for the execution of orders and/or inaccurate external data feeds provided by third-party vendors.** Accordingly, implementation of Trading Signals/failure to implement Trading Signals in the Signal Subscriber's Slave MT4 Accounts of the Subscribers to your trading Signals via the TTCM CopyTrade System can result in differences between the results in your Signal Provider's Master MT4 Account and the results in the Signal Subscriber's Slave MT4 Accounts of the Subscribers to your trading Signals; furthermore, differences in trading conditions in your your Signal Provider's Master MT4 Account and in the Signal Subscriber's Slave MT4 Accounts of the Subscribers to your trading Signals can jeopardize the possibility of implementing Trading Signals; communication failures can lead to missed Trading Signals.
- **You agree to accept such risks, and to hold us and each of our directors, officers, employees and agents, as well as each of our Affiliates and each of their respective directors, officers, employees and agents, as well as any Authorized Carriers, harmless from any losses in your Account(s) associated with these risks. Absent wilful or wanton misconduct, neither we (nor any of our directors, officers, employees and agents), nor any of our Affiliates (nor any of their respective directors, officers, employees and agents), nor any authorized carriers, will be liable for any such breakdowns or failures.**

***** NOTE: One of the key indicators we display in order to attempt to limit the risk of a given strategy is the "Maximum loss"; it measures the decline in the value of the realized and unrealized losses in the portfolio: when the "Maximum loss" in the portfolio is reached, all positions in the portfolio will be closed and trading in the portfolio will be suspended in order to preserve the agreed upon minimum level of equity in the Account;***

we do not guarantee, however, that the agreed upon minimum level of equity in the Account will be preserved, even if the “Maximum loss” is met and it can, therefore, not be excluded that the funds in the Account will be entirely depleted before the occurrence of any meaningful profit accumulation, regardless of whether the “Maximum loss” is met.
